

Have you experienced mental health concerns in pregnancy or after your baby's birth?

Would you like to share your opinions and experiences about the needs of mothers with perinatal mental health concerns?

If Yes then we would like to hear about your experiences.

Volunteers needed for research project through the Midwifery Group of Ottawa and the Ottawa Birth & Wellness Centre

(Participants must be over 18 years of age)

Participation Includes:

Participating in a Focus Group or Individual Interview lasting 30 – 60 minutes

****Your participation will provide health care providers, community organizations, and researchers with information to improve the care of mothers with mental health concerns.**
